include it.

Deakin Science

The children in Years One to Six participated in two sessions in the final weeks of Term Three, presented by Deakin student teachers. The Deakin students are in their second year of the Bachelor of Education and were completing a Science unit, supervised by their respective tutors and WPPS staff.

In small groups, the children were engaged in a range of activities linked to their level focus units. The Deakin supervisors and students were very positive in their comments and appreciative of the opportunity to visit our school. Teachers from all grades were thrilled with the diverse range of hands on activities in which the children participated. It was exciting to see the level of engagement and enthusiasm exhibited by everyone involved.

The photos below were taken during the sessions with the children in Years One and Two.
