18/02/2013

Dear Parents,

As part of our unit, 'All About Me', we are interested in how we care for pets in our families. We will be having an incursion next Monday 25th February, at school from the Responsible Pet Ownership Education Program. This free program operates through the councils and helps children understand safety and care for pets, particularly dogs.

The Instructor will bring her dog, so please let your child’s teacher know if your child has any allergies to dogs. Parent helpers are not required for this incursion.
