May 13th 2015

Dear Parents/Guardians,

On Wednesday 20th May the Foundation students will be visited by the RACV Street Scene Program for Primary Schools. RACV provide qualified and specially trained teachers to teach children about road safety through the Street Scene program. They will focus on steps to cross the road safely for example: 'Stop, Look, Listen and Think'. The Street Scene Program enhances our Term 2 Science/Integrated Unit 'On the Move', where students are learning about transport and how things move.

If you have any queries please see your child's teacher.
